

Program April 17th

12:30 Registration and snacks / light lunch

Management and Energy

- 13:30 Welcome to the ABIOTEC II Workshop (in cooperation with IBBA) Dr. rer. nat. E.- Peter Kulle, MFPA Weimar Burkhard Danz, MFPA Weimar Angela Clinkscales, Institute for Biogas, Waste
- 13:45 ABIOTEC I and II Carl Telle, MFPA Weimar
- 14:10 **Bio2Geo** Philipp Lorber, Bauhaus University Weimar
- 14:30 Management options for reducing the transfer of antibiotics, and antibiotic resistant bacteria Lisa Durso, Ph.D., USDA Agricultural Research Service, Agroecosystem Management Research Unit
- 15:00 Coffee break

Impact of manure and digestate application on farmlands on antibiotic resistance genes and soil health

- 15:30 The fate of antibiotics in manure after soil application Bjorn Berendsen, PhD, Wageningen Food Safety Research
- 16:00 **Manure affects the fate of antibiotics in soil** Prof. Dr. agr. habil. Sören Thiele-Bruhn, Trier OH University

16:30 Short Break

- 16:40 Fate of Disinfectant Quaternary Alklyammonium Compounds in Biogas Digestates, Manures and Soils Dr. Ines Mulder, Justus-Liebig University Giessen
- 17:00 Antibiotic and disinfectant resistant bacteria in manure and biogas plant digestates Dr. rer. nat. Stefanie Glaeser, Justus-Liebig University Giessen

17:20 Fate of antibiotic residues, antibiotic-resistant bacteria, and antibiotic resistance genes in US dairy manure management systems Carlton Poindexter, Ph.D., University of Maryland

17:50 Closing Remarks for day 1

Dinner and Discussion

19:00

ABIOTEC II

Program Weimar April 17th – 18th, 2023 Antibiotics in Manure and Digestate

Program April 18th

Approaches for monitoring antibiotic use

- 8:30 Monitoring locally non-target analysis for establishing orientation values Assoc. Prof. Martin Hansen, Aarhus University
- 9:00 **Monitoring antibiotic use in the poultry sector** *Bjorn Berendsen, PhD, Wageningen Food Safety Research*
- 9:30 Discussion in groups on selected questions / topics
- Potential approaches for monitoring antibiotic use?
- Establishing risk factors and screening methods for antibiotics and antibiotic-resistant bacteria?
- Suggested methods for facilitating antibiotic degradation?
- Methods for manure management?
- 10:30 Coffee break
- 11:00 Presentation of results and feedback from stakeholders
- 12:00 Closing remarks followed by snacks / light lunch
